

# Free walk-in measles vaccines

**Measles cases are  
increasing in London.  
Is your child fully  
vaccinated?**

Measles is a very contagious disease that can make kids seriously unwell if they're not fully vaccinated. It's never too late to catch up.

Children and young adults aged 1 to 26 can get free MMR vaccines on the vaccine bus.

Come and talk to our nurses about vaccination, ask any questions you have and get a free vaccine for you and your children.

You don't need a booking, just turn up.
